WELL-TRAINED ORGANIZATION

Wood Group is a market leader in the provision of selected engineering design, production support, and industrial gas turbine services to customers in the oil and gas and power generation industries. Employing more than 20,000 people in over 44 countries worldwide, Wood Group's continued expansion requires an increasing number of experienced staff to cope with expanding workload.

Using the Enterprise Training Subscription program, Wood Group embarked on a plan to retain existing employees and attract new engineers and designers by offering each staff member an accredited and customized training program. Traditional classroom training is currently the standard with distance learning and OnDemand elearning being integrated into the mix next to reduce the impact of travel on employees. WGENS also uses training as an opportunity to evaluate the latest technology available to identify future benefits.
