

ProjectWise Passport and Bentley Visa

Versatile, Portable, and Global Licenses
for Collaboration

ProjectWise Passports

ProjectWise Passports are a versatile, portable, and global license for collaboration for users of all ProjectWise client and desktop applications.

One ProjectWise Passport will license one person to use any ProjectWise client or web application, as well as several Bentley desktop applications, including Bentley Navigator and Bentley i-model Composer. It will also enable access to any authorized ProjectWise Server, including those of business partners.

ProjectWise Passport licenses can not be pooled or shared like concurrent licenses: every ProjectWise user must have an individual Passport, procured as a perpetual license, as a benefit of SELECT*, as a monthly subscription, or by ELS or MLS.

ProjectWise Passports are portable, reducing the cost of collaboration across multiple projects when compared to a per-project price model. With a ProjectWise Passport, every user only pays once.

* SELECT subscribers receive a Passport license for each license of MicroStation V8i

ProjectWise Passports - Details

WHAT IS IT?

ProjectWise Passports provide individuals with a versatile, portable, and global license for collaboration.

One ProjectWise Passport* will license one passport holder to use any ProjectWise client or desktop application. It will also license the connection between these tools and any licensed ProjectWise Server.

ProjectWise Passports can not be pooled or shared: every ProjectWise user must each have a Passport, procured as a perpetual license, as a benefit of SELECT*, as a monthly subscription, or funded with an ELS or MLS.

ProjectWise Passports* are portable, reducing the cost of collaboration across multiple projects when compared to a per-project price model.

WHAT DOES IT WORK WITH?

A ProjectWise Passport* provides a right to use a wide range of ProjectWise client and desktop applications and licenses connection to ProjectWise Servers including:

Available Clients or Desktop Applications

- ProjectWise Explorer
- Bentley Navigator
- Bentley i-model Composer
- ProjectWise InterPlot Organizer
- ProjectWise Explore for the iPad
- Bentley Navigator for the iPad

ProjectWise Collaboration Servers (licensing a connection to)

- ProjectWise Integration Server
- ProjectWise InterPlot Server
- ProjectWise Web Server
- ProjectWise Publishing Server

* SELECT subscription required for multi-product use.

HOW DO I KNOW IF IT IS FOR ME?

Four Simple Topics to Consider

1. Do you routinely collaborate with other professionals?

ProjectWise is a scalable collaboration system which includes clients or desktop applications for visual collaboration and servers for connecting people and information across the distributed enterprise.

ProjectWise Passports* provide individuals with a versatile, portable, and global license for using all ProjectWise clients, and servers.

2. When collaborating do you review and analyze designs?

Bentley Navigator is the first visual collaboration client for design review and analysis plus work packaging that fully supports iterative workflows and reuse of all content throughout the process.

Bentley Navigator is licensed with a ProjectWise Passport.

3. Do you wish you could buy just one license for collaboration?

With a ProjectWise Passport* every user only pays once. In contrast to the solutions that may appear to be cheaper a ProjectWise Passport is an investment that provides a greater return on investment with every additional client or desktop application used.

ProjectWise Passports - FAQ

FREQUENTLY ASKED QUESTIONS

Who will need a ProjectWise Passport?

Every ProjectWise user will need a ProjectWise Passport to license the use of any ProjectWise technology.

Do I need a ProjectWise Passport for every ProjectWise product? No. A ProjectWise Passport is a global license for collaboration. One ProjectWise Passport will license use of all ProjectWise client or desktop applications.

Can ProjectWise Passports be pooled or shared using SELECTserver?

No. ProjectWise Passports cannot be pooled or shared. Every ProjectWise user must each have their own Passport to collaborate using ProjectWise.

What if I have 1,000 people in my organization but I only ever have 200 people connecting to the ProjectWise server at one time?

You will need to procure 1,000 ProjectWise Passports. You may however be better served with an Enterprise License Agreement (ELS) or a Municipal License Agreement (MLS) if your usage patterns vary based on demand. One exception is the ProjectWise Web View Server, which provides "view only" access to a number of concurrent users.

How is ProjectWise Passport usage counted on SELECTserver?

Unique user names are counted within the SELECT agreement term. The total number of unique uses is the number of ProjectWise Passports required.

Can I transfer ProjectWise Passports to accommodate staff turnover?

Yes, of course. When one user leaves and another joins, the new user can start using the existing Passport. There is no need to inform Bentley, but you may be asked to explain your usage logs if they exceed your Passport count.

Can I use the ProjectWise Passport to connect to my ProjectWise Server?

Yes. The same ProjectWise Passport will license the connection between your ProjectWise client and any ProjectWise Servers.

Can I use a Passport to connect to someone else's ProjectWise Server?

Yes. The same ProjectWise Passport will license the connection between your ProjectWise client or desktop applications and any licensed ProjectWise Servers – regardless of who they belong to. Of course, the owner will need to grant access permissions to connect.

Is a ProjectWise Passport a good value when compared to other vendors offerings?

The ProjectWise Passport model is very inexpensive in comparison to many solutions that are priced per-project. A ProjectWise Passport* licenses the use of many different ProjectWise client or desktop applications, and their connection to any ProjectWise Server, the value and ROI is huge.

What is the difference between a ProjectWise Passport and Passport Subscriptions?

While similar in name, these two offerings are very different:

- [ProjectWise Passport](#) gives one ProjectWise user access to internal or external ProjectWise servers through a variety of desktop applications or clients.
- Bentley's [Passport Subscriptions](#), on the other hand, include a discipline specific portfolio of software products, training courses, and manufacturer's content for different types of project work, plus anytime software upgrades and 24/7/365 SELECTsupport. For more information, please visit the [Passport Subscriptions page](#).

Bentley Visa

A Bentley Visa license enables one named user to enable additional advanced functionality within a Bentley desktop application like Bentley Navigator or MicroStation. Today there are two Bentley Visas, but expect to see more in the future.

- Bentley Clash Resolution Visa
 - Detect clashes on native content from many sources without translation
 - Create and apply powerful suppression rules to reduce false results
 - Manage and resolve clash results effectively
- Bentley Schedule Simulation Visa
 - Import project schedule information to simulate project planning
 - Review multiple schedule scenarios simultaneously
 - Automate linking of schedule data
